FAQ

ZEVA

Striking yet serene, the Zeva Bed is a refined expression of modern design and eco-luxury craftsmanship. Defined by its softly sculpted silhouette, gently arched headboard, and elegantly tapered legs, Zeva brings a sense of quiet sophistication to the bedroom—where every curve is intentional and every detail feels effortless.

[Back](#)

[Content Menu](#)

ZEVA

Zeva chests brings sculptural beauty, artful texture, and elevated craftsmanship to the bedroom—proof that storage can be every bit as stylish as it is functional. Clean architectural lines are softened by rounded edges, while Zeva's signature carved drawer fronts add depth, texture, and a subtle wow factor that catches the light beautifully.

CURRENT

Rich and radiant, this caramelized bamboo finish reveals a refined harmony of warm golden tones and elegant linear grain. Naturally achieved through heat and pressure, the color flows seamlessly through the solid bamboo, creating depth, movement, and a quietly luxurious presence that elevates modern interiors.

CURRENT

Amber is bamboo at its most honest—and most beautiful. Warm golden hues emerge naturally through a specialized heat and pressure process that transforms bamboo's own sugars into rich, lasting color. No stains. No shortcuts. Just depth, character, and organic variation that make every piece feel refined, elevated, and truly one of a kind.

ERIKKA

Every detail speaks to luxury: two center drawers crafted with English dovetail joinery soft-closing, under-mount drawers, while touch-latch doors open to reveal adjustable shelving with discreet cable management. Finished on all four sides, Erikka shines from every angle, with recessed pulls completing its clean, modern silhouette.

MIJA

Crafted for both beauty and function, Mija's sleek 36" x 54 1/4" profile gracefully extends to 72" with an innovative 18" self-storing butterfly leaf. The extension glides open with ease—no fuss, no heavy lifting—just one-handed luxury that transforms everyday dining into an occasion.

WHY CHOOSE GREENINGTON

20 YEARS

For over 20 years Greenington's factory has been developing and manufacturing high quality bamboo products. As new technologies emerge, Greenington will continue to stay on the cutting edge, maintaining its role as an industry leader, providing its customers with innovative designs made of the finest materials.

GREENINGTON PRODUCT FEATURES

- Fully assembled case goods
- Beautifully finished all around
- Solid bamboo drawer box with English dovetail
- Under mount, soft closing drawer glides
- Fully assembled chairs and stools
- Cable assisted ball bearing table glides
- Doors - soft closing swing doors
- European slat system, no box spring needed
- Solid Moso bamboo bed slats
- Easy to use connected bed slats

- ISO 9001
Quality Management Certified
- ISO 14001
Environment Management Certified
- In-house Design Team
- OEM Capabilities - Private Label
- Committed to building long term partnerships.
- Member - Sustainable Furnishings Council (SFC)

Eco Ridge

- Crafted in solid Moso bamboo
- No particle board, or MDF
- Earth friendly, sustainable resource
- 20% harder than Red Oak
- Solid Wood Slats
- Fully assembled nightstand and chests
- Solidly built 5 sided plywood drawer box
- Drawer box faced in solid bamboo
- Regular Construction on Casgood Backs
- No MAP Regulation

VARIETY OF CHOICES

The surface treatment requires skilled craftsmanship. Carefully selected, the semi-transparent appearance of our stain finishes preserve the natural structure of the bamboo, creating a beautiful finish to accentuate the bamboo grain's natural beauty. Stain finish colors, Caviar, Sable, Java, Ruby, and Black Walnut bring a new look to sustainable products to meet your commercial project needs.

MECHANICAL FINISHES

These color choices are created through a natural process that works in harmony with the bamboo. Amber, Wheat, and Caramelized are not stain finishes, simply an innovation using earth friendly heat, steam, and pressure to transform the solid bamboo material into deep vibrant colors, creating a unique grain with continuous color throughout.

EXOTIC TIGER

Exotic bamboo is made from finer strands of light and dark bamboo fiber which are heated and compressed into very dense panels. The compression and heat transforms this more fibrous bamboo into a material with deeper and richer grain patterns creating a unique and beautifully striped grain with continuous colors throughout. No two pieces are exactly alike.

Greenington may qualify your project for LEED credits.

Credit: MR6 /

Rapidly Renewable Materials

Intent: To reduce the use and depletion of finite raw materials and long-cycle renewable materials by replacing them with rapidly renewable materials.

Credit: IEQ4.5 / Low Emitting

Materials – Systems Furniture – Seating

Intent: To reduce the quantity of indoor air contaminants that are odorous, irritating and/or harmful to the comfort and well-being of installers and occupants.

WHY BAMBOO

- **FAST GROWING**

Grows to harvestable maturity in 5 years or less.

- **RAPIDLY RENEWABLE**

Replenishes itself faster than other wood materials.

- **SELF PROPAGATING**

No need to replant, roots left intact to grow next season.

- **CARBON SEQUESTRATION**

Bamboo is among the most efficient CO2 absorbers on Earth.

- **RELEASES OXYGEN**

Bamboo releases about 35% more oxygen than trees.

- **LOCAL FARMERS**

Locally owned and managed within close proximity.

- **NATURALLY FARMED**

Without the use of pesticides, fertilizers, or irrigation.

- **HAND HARVESTED**

No heavy equipment is used, leaving forest floor intact.

- **ZERO WASTE**

Entire bamboo culm is used, wasting nothing.

- **ENVIRONMENTALLY SAFE**

Low VOC, natural finishes. Some use only heat, steam & pressure.

- **20% HARDER THAN RED OAK**

- **SUSTAINABLE ALTERNATIVE**

To many endangered hardwoods around the globe.

Bamboo is an environmentally friendly, renewable resource harvested from sustainable and rapidly growing forests. Each bamboo culm used is individually selected and hand harvested. No heavy equipment is brought into the bamboo forests to damage the integrity of the forest floors. Unlike trees which get harvested, the rhizome roots of bamboo live to produce more shoots. Because the bamboo doesn't die, it does not release its sequestered carbon like a tree does after it is cut down.

GREENINGTON

Information

Environmentally Sustainable: Bamboo is one of the earth's fastest growing plants, a grass that grows to maturity in 5 years or less. Our bamboo is harvested from the managed forests of a fully sustainable, environmentally friendly and rapidly growing renewable resource.

Bamboo reduces the atmospheric concentration of carbon dioxide, which is the main contributor to reduce global warming. Bamboo releases about 35% more oxygen than equivalent stands of trees making it one of the best plants on earth to sequester carbon.

Our bamboo material has been treated and kiln dried to a specific moisture content, then put through our special manufacturing process to produce the bamboo materials we use. The VOC emissions of the adhesive used in manufacturing our products are well below allowable European, US and California standards.

Advantages

Of our furniture

Hardness: Greenington furniture uses only mature Moso bamboo that is at least 5 years old ensuring that our furniture possesses strength, hardness and stability. Our Classic bamboo is 20% harder than Oak, and our Exotic bamboo is 100% harder than Red Oak.

High Quality: From processing the raw bamboo material into solid stock and panels, we make the final product in our ISO 9001 and ISO 14001 certified factories under tight quality control.

Variety of Choices: We offer a wide selection within our Classic Bamboo Collections, featuring our standard laminated panels in a natural Amber, Caramelized, and Wheat finishes, along with Caviar, Black Walnut and Sable stain finishes.

Leadership: With over 20 years experience manufacturing bamboo products, Greenington is the leading company in mid to high end bamboo furniture production. Our processes are innovative, using the latest developed technologies to create new product lines.

Frequently Asked Questions

About your new bamboo furniture

What kind of bamboo is used in Greenington Furniture?

There are more than 1200 bamboo species throughout the world. Greenington only uses mature Moso bamboo (*Phyllostachys pubescens*), valued for its hardness, durability and stability. And pandas do not feed on Moso bamboo, which is extremely important.

Is there off-gassing to be concerned about with the adhesives used?

The adhesives used in manufacturing our products have very low off-gas emissions. The formaldehyde gas levels are well below the European, US, and including California VOC standards.

Is Greenington furniture considered a solid bamboo product?

Yes, Greenington furniture is made of bamboo material, which is 25% harder than Red Oak. It is made of solid bamboo panels laminated with many individual bamboo strips. There is no MDF, plywood, or other materials. It's 100% solid bamboo material.

Caramelized, Amber, Wheat, and Exotic Bamboo:

These mechanical finishes are created through a natural process that works in harmony with the bamboo. These are not stain finishes, simply an innovation using earth friendly heat, steam, and pressure to transform the solid bamboo material into gorgeous colors. Variations are expected in grain and color and enrich the natural beauty of bamboo furniture.

Where are your products made?

All Greenington bamboo furniture is made in our ISO 9001 Quality Management and ISO 14001 Environment Management certified factories in China.

How do I care for and maintain the bamboo furniture?

Periodic cleaning can be done using a soft cloth and a gentle cleaner designed for wood furniture. Please visit greenington.com for more detailed instructions.

WHY CHOOSE BAMBOO

0%

No waste. Greenington utilizes the entire bamboo culm, wasting nothing

0%

Moso bamboo matures in 5 years, just 10% of the time for hardwood, which can take up to 40-60 years.

0%

Greenington is crafted in 100% bamboo, no plywood, particle board, or veneers are used.

Go with Bamboo... Live with Sustainability

Greenington craftsmanship is all about beauty that lasts. Every piece we create blends elegant design, lasting durability, and real everyday value. We take our time—because the details matter. From the way a piece looks and feels to how it performs in your home, nothing is overlooked.

Our furniture begins with solid strips cut directly from the bamboo culm. These strips are gently steamed to naturally caramelize the bamboo's sugars, creating rich, warm color. The finished strips are then expertly laminated into solid bamboo panels of varying sizes and thicknesses—each one the foundation of our thoughtfully designed collections.

From raw bamboo to finished furniture, every step happens under strict quality control and meets international standards. The result? Beautifully made pieces that look stunning, perform effortlessly, and are crafted to be enjoyed for years to come.
